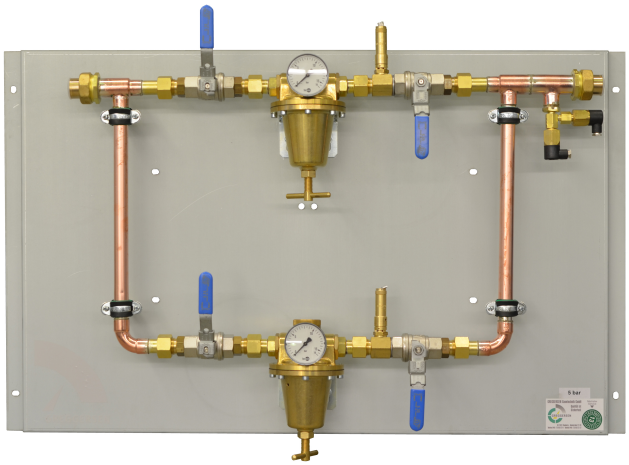
Pressure Regulator Unit, AIR, Size 2, 5bar



Manufacturer:	Greggersen
Product Number:	325815

Description

Pressure regulator unit for reducing the receiver pressure to 5 bar, design based on DIN EN ISO 7396-1, each pressure regulator stage duplicated with shut-off valves, safety valve, contact gauge, fully mounted on a mounting plate.

Size: 2
Capacity: 300 Nm^3/h
Gas type: Compressed air / AIR
Pressure: 500 kPa (5 bar)
Contact gauge: 400 / 600 kPa (4 bar / 6 bar)

Properties

Gas Type	AIR Compressed Air
