Pressure Regulator Unit, AIR, Size 1, 8bar

Manufacturer:	Greggersen
Product Number:	325812

Description

Pressure regulator unit for reducing vessel pressure to 8 bar, design in accordance with DIN EN ISO 7396-1, each pressure regulator stage duplicated with shut-off valves, safety valve, contact transmitter, completely mounted on a mounting plate.

Size: 1

Capacity: 50 Nm^3/h

Gas type: Compressed air / AIR

Pressure: 800 kPa (8 bar)

Contact transmitter: 600 / 1000 kPa (6 bar / 10 bar)

Properties

Gas Type	AIR Compressed Air
