Varioport Skua 2.0 -90, AIR, NIST

Manufacturer:	Greggersen
Product Number:	904608

Description

Portable Compressed-Air Suction Unit Varioport Skua -90

Medical, portable suction unit for compressed air
to hold 2 secretion collection jars.
The vacuum is generated by means of compressed air according to the Venturi principle
.

The jar holder is universal. Standard jars in
sizes from 0.5 to 3.0 L from various manufacturers can be used
(e.g. Serres, Abbott, Medela, Ardo, Cardinal, and many more).
The carrying frame features a sturdy handle and a clamp for
a 25x10 mm equipment rail. The control unit is located
at the front, allowing the operator quick and direct access.
The gas inlet, designed as a NIST coupling, is located at the rear
of the unit, ensuring the supply hose remains outside the working area.

The airflow can also be adjusted individually via the exhaust sleeve.

Scope of delivery:

- Compressed-Air Suction Unit SKUA-90 with fine-metering valve, rotatable vacuum gauge
- Carrying frame, coated
- 2 pcs. highly flexible retaining cuffs

Technical data:

Gas type: Compressed Air / AIR

Inlet: NIST in accordance with DIN EN ISO 18082

Outlet: 9/16-18 UNF with vacuum nipple

Control range: 0 to -85 kPa ± 10%

Flow rate: > 20 l Freeflow/min

Weight: approx. 3 kg (without jars)

Properties

Gas Type	AIR Compressed Air
